Walkway

Sustainable and highly porous rubber surfacing for walkways, paths and urban decorative spaces

playtop®
SAFER SURFACING

Performance Characteristics

Playtop Walkway is ideal for walkways, paths, recreational spaces and urban decoration.

Playtop Walkway is a resilient, durable and porous system perfect for both pedestrians, runners, wheel chair users, prams and light vehicles like disability scooters. Playtop Walkway is also available in a Nike Grind version which incorporates recycled granules from worn out sports shoes giving the material a new life.

Playtop Walkway is installed as a one-layer system onto an existing concrete or tarmac base.

Areas for use

playtop® SAFER SURFACING / NIKE GRIND
