

Outdoor

playtop®

Fully tested sustainable, safe and colourful playground surfacing for outdoor playgrounds and recreational spaces

SAFER SURFACING

Performance Characteristics

Playtop Outdoor is a beautiful, inspirational and environmentally friendly rubber surface which provides maximum safety to children's playgrounds and recreational spaces.

The porous surface ensures rapid drainage and the technical properties of the high-quality components used ensures a high wear resistance. Playtop Outdoor is also available in our unique Nike Grind colour range.

Playtop Outdoor is the perfect choice for a fully tested safety surface that complies with the strictest environmental and performance-based standards.
