

Sport Court

An innovative and durable rubber surfacing for multi-purpose activity courts and leisure areas

playtop®

SAFER SURFACING

Performance Characteristics

Playtop Sport Court is an attractive, durable, weather resistant and porous rubber surface, excellent for all kinds of recreational physical activity from basketball and football to yoga and gymnastics.

Playtop Sport Court is made from the most durable materials and is also available in a Nike Grind version with a range of cool colours to choose from when creating your own sustainable version of Playtop Sport Court. Playtop Sport Court complies with the strictest of European safety and environmental standards.

Playtop Sport Court can be installed onto an existing or new concrete or tarmac sub base.
